Let's Get Started

Today we will learn

What is REST Assured
What it is used for
What all can we do with REST Assured

What is REST Assured | Use

REST Assured is a java library for testing RESTful web services

It is used to invoke REST web services and check response

Can be used to test XML as well as JSON based web services

It supports POST, GET, PUT, DELETE, OPTIONS, PATCH and HEAD requests and can be used to validate and verify the response of these requests

Can be integrated with testing frameworks like JUnit, TestNG etc

REST Assured is implemented in Groovy

Uses BDD style for testing

BDD - Behaviour Driven Development
